Tachles Fund of the Westbury Group

On behalf of *Association of "Children of the Holocaust" in Poland*  
I strongly recommend the *Jewish Rest Home Association (Mosza Zkenim)* and their idea of construction an apartment building for old and lonely people, like are most of the members of our association.

In Warsaw before the second world war were two such places for older people, but disappeared together with their residents.

I am sure that funds obtained from your foundation in this particular case would be used for very worthy aim. Of course we will also participate personally and materially in the activity of *Jewish Rest Home Association (Mosza Zkenim)*, which we recommend as a beneficiary of your foundation.

Anna Drabik

President of Association of "Children of the Holocaust" in Poland
